NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

Based on Provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1953, General Rules and Regulations and Rules of Practice and Procedures, By Order of the Board of Oil, Gas and Mining.

"Small mining operations" means mining operations which disturb or will disturb five or less surface acres at any given time.

* * * * *

I. GENERAL INFORMATION (Rule R613-004-104)

1. Name of Claim/Mine: Denali Mine / Golden Rose

2. Name of Company/Operator: Denali Mining Corp.
Tom Mowery

3. Address: Box 461
City: Green River State: Ut. Zip Code: 84525
Telephone Number: (801) 564-8155

4. Project Location:
Emery T18S R14E 22, 23, 27, 28, 35, 35
County Township Range Section 1/4, 1/4 Section

5. Ownership of Land Surface:
Private (Fee) Public Domain (BLM) National Forest (USFS)
State of Utah Other: _____

6. Mineral(s) to be Mined: Au, Pt., silver

7. Ownership of Minerals:
Private (Fee) Public Domain (BLM) National Forest (USFS)
State of Utah Other: _____

1. Name of the donor: [Name]
2. Address of the donor: [Address]

3. Name of the donee: [Name]
4. Address of the donee: [Address]

5. Description of the property: [Description]
6. Value of the property: [Value]

7. Date of the gift: [Date]
8. Signature of the donor: [Signature]

9. Signature of the donee: [Signature]
10. Name of the witness: [Name]

11. Address of the witness: [Address]
12. Signature of the witness: [Signature]

13. Name of the registrar: [Name]
14. Address of the registrar: [Address]

15. Signature of the registrar: [Signature]
16. Date of registration: [Date]

17. Name of the government: [Name]
18. Address of the government: [Address]

8. Have the above owners been notified in writing? Yes No
9. Does the operator have legal right to enter and conduct mining operations on the land covered by this notice? Yes No

II. MAP(S) (Rule R613-004-105)

Base Map - A true and correct topographic base map showing the location of the proposed operation must be submitted with this Notice. The scale should be approximately 1 inch = 2,000 feet (preferably a USGS 7.5 minute series or equivalent topographic map (where available).

III. OPERATION PLAN (Rule R613-004-106)

1. Type of mining: Surface Underground
2. Provide a brief description of the proposed mining operation and on-site processing facilities. The mining operation is exactly like the one you approved this summer for the Brown Rose mine N. of Green River. Ms. Shirley Rose is Vice-President of Denali Corp. all enclosed non-cyanide chemical leaching, open pit test unit. It is under 5 acres.

IV. OPERATION AND RECLAMATION PRACTICES (Rule R613-004-107 & -109)

The reclamation and operation obligation is to keep the area cleaned up and in a workmanlike condition, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover (as compared to adjacent areas). To accomplish this, the operator will need to do the following work concurrently, or at completion (within one (1) year) of mining:

1. Keep mining operation in a safe, clean, and environmentally stable condition.
2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
3. Plug or cap all drill holes.
4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
6. Keep natural stream channels unobstructed and clear of waste and debris.
7. Clean up the area by disposing of trash, scrap metal, wood, machinery, and buildings.
8. Conduct mining activities so as to minimize erosion and control sediment.

9. Reclaim all roads that are not part of a permanent transportation system.
10. Stockpile topsoil and suitable overburden prior to mining.
11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
12. Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil - fall is the preferred time to seed. (The Division also recommends broadcast fertilization at the time of seeding of 200 lbs./acre of diammonium phosphate 18-46-0.)

V. VARIANCE REQUEST (Rule R613-004-110)

Yes No

Any planned deviations from Rules R613-004-107, Operation Practices, or R613-004-109, Reclamation Practices, as summarized above, should be identified below and justification given for the variance request(s).

<u>Items Numbers</u>	<u>Variance Request Justification</u>
<u>13 + 14</u>	<u>We are willing to do anything requested. However, as no grass will grow on this soil now, we may not be able to grow any -</u>
_____	_____
_____	_____
_____	_____

VI. SIGNATURE REQUIREMENT

I hereby commit to the reclamation of the aforementioned small mining operation as required by the Utah Mined Land Reclamation Act (40-8) and rules specified by the Board of Oil, Gas and Mining.
